EDUCATION

University of North Carolina
B.S. in Statistics & Analytics
Minor in Data Science and Geography

Chapel Hill, NC
May 2026

EXPERIENCE

UNC Women's Basketball

Chapel Hill, NC

Basketball Analytics Assistant

October 2024 – April 2026

- Informed coaching staff decision-making through end-to-end analytics support, maintaining database tracking 12+ roster players, 10+ practice players, shot charts, and progression metrics.
- Established first-ever student analyst team (3-6 analysts), leading hiring, training, and oversight.
- Enabled centralized access to analytics by building web app (desktop & mobile) used by all 6 coaches for scouting, reporting, and decision-making ([Practice Analytics App](#)).
- Delivered [tailored scouting reports](#) using Synergy and Sports Reference, aligning analytics with all 5 assistant coach's scouting needs.
- Improved lineup decisions & play-calling by developing offensive set metrics tool covering 100+ sets.

Miami HEAT / 601 Analytics

Miami, FL

Data Analytics Intern

June 2025 – August 2025

- Improved accessibility of analytics reports by building full-scale internal documentation site (HTML) in collaboration with 601 Analytics.
- Informed viewership strategy by developing in-season attendance model (SQL, Python) and presenting winning intern project to senior leadership.

Sacramento Kings

Sacramento, CA

Business Intelligence Intern

June 2024 – August 2024

- Enabled Tableau dashboards using SQL and Snowflake to analyze events at Golden 1 Center.
- Improved retention strategy by developing season ticket renewal model (R) and deploying Shiny app for non-technical stakeholder interaction.

UMass Men's Basketball

Amherst, MA

Student Manager / Analytics Assistant

December 2022 – April 2024

- Enabled performance analysis by building interactive Shiny app to track and visualize practice data.
- Informed coaching decisions through real-time dashboards monitoring individual and team performance trends.

HONORS & PROGRAMS

NBA Future Analytics Stars Program

January 2026 – May 2026

- Selected as 1 of 50 participants from ~2,500 applicants in the NBA's Future Analytics Stars program.
- Analyzed NBA skeletal pose and tracking data to evaluate player movement and spatial interactions.

PROJECTS

Transfer Portal Model – [Project Site](#)

- Built interactive CBB transfer portal model to evaluate player fit, performance, and projected impact.
- Developed public project site to explaining methodology, outputs, and insights for broad audiences.

NBA Point Guard Salary Modeling Project - [Part 1](#) & [Part 2](#)

- Modeled player valuation and salary inefficiencies using performance metrics.

2025-26 NBA MVP Predictions - NBA Future Analytics Stars Application Challenge

- [Project Video](#): Summarizing my full modeling workflow, feature engineering, & final MVP predictions.
